Chapter 381: The Rise of the Nine Divine Dragons

A New Threat

Within the vast expanse of the Heavenly Realm, a disturbance rippled through the fabric of existence. An ancient power, long dormant and forgotten by time, began to awaken. This force, known as the Eclipsing Wraiths, emerged from the dark corners of a desolate realm beyond the multiverse.

The Eclipsing Wraiths were ethereal beings of chaos, born from the remnants of shattered universes. They possessed the power to consume light, distort reality, and corrupt even the strongest wills. Their arrival threatened to unravel the balance of the Heavenly Realm and disrupt the harmony established by the Divine Triad.

The Nine Divine Dragons Respond

When the threat became evident, the Nine Divine Dragons were the first to act. Each of them, with their unique powers and divine essence, united to confront this unparalleled menace.

1. Sung Ye-Jun, with his 1,500 crimson and black wings, summoned the flames of Inferna Draconis, engulfing the wraiths in purifying fire.

2. Sung Ye-Rin, with her 1,400 ethereal silver wings, unleashed the brilliance of Lunaris Citadel, her light dispelling the wraiths' chaotic shadows.

3. Sung Ha-Young, with his 1,200 azure wings, wielded the power of the storm from Draconis Sanctum, creating a tempest that tore through the wraiths.

4. Sung Jun-Ho, with his 1,300 golden wings, called upon the divine authority of Aetheris Dominion, stabilizing the fractured reality caused by the wraiths.

5. Sung Hyun-Joo, with her 1,100 shadowy and iridescent wings, manipulated the void to trap the wraiths in an inescapable prison.

6. Sung Ri-Hye, with her 1,200 silver and lunar wings, channeled the energy of the moon from Lunaris Asylum, weakening the wraiths' chaotic essence.

7. Sung Kyun-Rae, with his 1,100 fiery orange wings, used the flames of Inferna Dominion to obliterate the wraiths' corporeal forms.

8. Sung Ji-Ae, with her 1,000 twilight-colored wings, summoned the mystic energies of Mystica Enclave, unraveling the wraiths' influence on the Heavenly Realm.

9. Sung Da-Hyun, with his 1,300 tempestuous black and blue wings, called forth the power of Tempest Keep, creating a vortex that consumed the remaining wraiths.

Victory Through Unity

The Nine Divine Dragons, with their combined might, succeeded in eliminating the Eclipsing Wraiths. Their teamwork, honed through countless battles, ensured that the threat was eradicated without spreading chaos to the rest of the Heavenly Realm.

Their victory was a testament to their strength as individuals and as a unified force. They proved themselves worthy as the guardians of the Heavenly Realm, second only to the Divine Triad.

Recognition from the Divine Triad

After the battle, the Divine Triad acknowledged the efforts of the Nine Divine Dragons.

Ashborn, from the True Celestial Realm, bestowed upon them celestial blessings, enhancing their powers further.

Sung Su-Ho, from the True Dragon God Realm, gifted them divine artifacts forged from his realm's black flames, granting them new abilities to combat future threats.

Sung Jin-Woo, from the True Absolute One Domain Realm, extended his gratitude and reinforced their dominion within the Heavenly Realm.

Their victory not only solidified their role as protectors but also ensured the continued stability of the Heavenly Realm.

A New Era of Vigilance

Though the Eclipsing Wraiths had been vanquished, the battle served as a reminder of the ever-present threats lurking beyond the multiverse. The Nine Divine Dragons remained vigilant, ever prepared to defend the realms under their care.

With their powers now greater than ever, they stood as an unyielding shield, ready to face any challenge that dared to threaten the harmony of existence.
